

Our IT Solutions : [B2T](#)

We offer you documented shipment status, shipping schedules and shipping confirmation s. Better
still, we can replace documentation by our tracking system

"B2T"

which you can access through a
secure Internet connection

.

Our **"B2T"** system will be **customized to your specific requirements**. It is not a standardised tracking system. You will benefit from your own

"B2T"

system with your orders and our information. The details can be shared. Let us know what to share and who can share it.

"B2T" is a means to increase your staff productivity and a time saver

.

Our IT solutions improve your productivity
